PROJECTS

Just Quiz ↗

Developed **Just-Quiz**, an interactive web application that enables users to solve multiple-choice questions (MCQs) across various categories. The project incorporates a responsive, mobile-friendly design using **Bootstrap 5**, ensuring an optimal user experience on all devices. Leveraged **JavaScript** for dynamic content and real-time feedback, while utilizing **HTML** and **CSS** for layout and styling.

Portfolio Website ↗

Created a personal portfolio website to showcase my skills, projects, and professional experience. Designed with a clean and modern layout using **HTML**, **CSS**, and **Bootstrap 5** to ensure responsiveness across all devices. Incorporated **JavaScript** for interactive elements and smooth transitions, allowing visitors to explore my work and contact me easily. The website serves as a dynamic platform to present my technical expertise and projects in web development.
